(I started out publishing the HealthForce book for the Bobs (Bob Lewanski & Bob Zuraw) & self-publishing my own books (24) to gain some experience in putting together a book for the market place. With Universal Tao books it was a whole other level because the formulas (practices were being taught & practiced) not written down in book form to sell to anyone. MC had 8 self-published books & 2 published books (he was not getting any royalties from the publisher, Aurora) in print over 20 years with another 40 to go but his originals could not on softcopy so they could not be sold to a publisher. I had my work cut out with a non-English speaking Thai staff (Gee, then came Jim (the woman I trained at my Thai printers for my chi Cards & books) that MC hired after she got into a fight with my printer's wife, Kwan (currently training) & Oh then & now Kook for the Foreign Rights & then Gate & now Leck for the instructor while using Lin to scan everything) that had no what the books were about but understood how use the computers. So I had them scan the exist books & I edited them with English proof readers (Jean Chilton & Colin Campbell) while I had put together the new starting with Tao Yin from stretch with only the formulas & filling in text between them producing a Book, Booklet, Poster, Post Card & T-Shirts through my Chi Card printer, Sermsak creating a series. These were all self-published & we knew we had to get them to the public either creating a distribution company or get a real publisher to distribute them which everyone at the time said we could never get but MC & I said watch us. Through Bryan Bertsch who said he could get us a lead with InnerTraditions or Red Wing Publishers so after about 2 years I got an InnerTraditions lead, Jon Graham & struck deal with them (\$3,000 per book \$1,500 signing the contract & the balance when the book printed based on a 8-10% royalty payback.) on our book, "Sexual Reflexology", co-author with me under W.U. Wei (I knew they would take a sex book so that is why I threw it together when everyone threw it in the garbage) followed by another 30 contracts over the following 6 years with another 21 books to go.

(I started to write this series because my student, Father Charles Morris (my father's St. Victor's confessor & spiritual mentor) asked me to put these understands in a book. I said I could not write anything but thinking about what my S Face Analysis, Robert Whiteside told me (5/13/1991) that I could have someone transcribe an audiotape from my lecture into a book. I told him that & he agreed to do it which created my 1st book, "Living in the Tao" which lead (format) to another 10 books (each chapter) & later combining all 11 books in one book, "Living in the Tao" got a publishing contract with InnerTraditions with Master Chia as a co-author. I also created a poetry book (12) series using my mother's poems (50) as a format & inspiration to write over 1,200 poems in 12 books & later co-authoring with Master Chia a daily (366) poetry book, "Emerald River" based on 366 of my best poems with artwork & commentaries (MC Idea) being sold to InnerTraditions.)

Throughout 8,000 years of Chinese Taoist history, various forms of internal energy training were developed. The aim of these methods were to heal and strengthen the physical body, to balance emotions, and to enhance spiritual development. The knowledge of how to use these energies has been a closely guarded secret passed down through the ages from Master to selected students. Now, The Professor will share these simple, powerful teachings and techniques learned over the past twenty years studying directly under Taoist Master Mantak Chia. The Professor is certified to teach in the Living Tao Practices (Senior Instructor), Chi Nei Tsang (Senior Teacher), Cosmic Healing (Senior Teacher), and the Immortal Tao (Senior Inner Alchemy Instructor) by Master Chia. Master Chia has traveled throughout Southeast Asia for the past forty years studying under Taoist and Buddhist Masters with his principal Taoist teacher, Master Yi Eng, a communist China refugee who authorized him to teach and heal. It is through this lineage that his Senior Instructor, The Professor offers you these formulas and understandings.

Pen Name: William U. (After I convinced them to print our Universal Healing Tao System in a complete series I had to convince them to print the existing 8 books that had a co-copywriter with his ex-wife Maneewan (Want Money) Chia. They were afraid to do it

do to the unfriendly parting between MC & her but I told them if they printed them first no other publisher would do it because she did not write the books & would not write any future books on the UHT System because she did not know or practice it. They finally bought it after 2-year discussion & we never looked back. They are the best thing we ever did with the books because they take them reformat & edit them professionally with a complete staff of writers, editors, layout, artists & marketers. The books are beautiful & sell world wide so we not only the initial payment but future royalties but more important they promote MC's workshops & the Tao Garden Health Resort & Spa.)
