

From the 1st time I came into contact with Master Chia in 1984 and the students of the Universal Healing Tao System I was completely impressed with their commitment, understanding and compression of the Tao and its Way. Over 300 students that I have personally meet and worked with the Universal Healing Tao practices which has always been a delight and pleasure for me to share my understandings of the Tao. Their curiosity along with mine moved me to all my Taoist discoveries and understandings giving me a clear life direction and the motivation to get there.

If any of you have the opportunity and time please read through all my friends and comments of the Tao through the Universal Healing Tao System in the following 15 pages.
