

I have always enjoyed watch movies because always took me into a fantasy world of adventure, drama, comedy and romance. Movies became my relaxing time taking me out of my daily projects into new worlds unexplored and I love to analysis and grade them on art quality, script, acting, directing and most subject matter. Movies have a great impact on your lives if we allow ourselves to discover them with all the color and pageantry of life. And television shows had a great influence on me with the all the comedies and early western shows.

If any of you have the opportunity and time please read through all my favorite movies (232) and TV shows (51) with commentary that had tremendous impact on my early life through the following 43 pages.

Top's Influential Movies (232 Titles)(Characters 2,688) & TV Shows (51) (02/15/57-01/14/11)

(I have seen over 15,000 films in over 55 years with my early years watching movies on day time TV with Rita Bell (9:00am), Bill Kennedy (1:00pm) & Afternoon Matinee (4:30pm) 3 times a day during the summers. Then I went with my family in our car going to the area Drive Ins (Waterford, Pontiac, Miracle Mile & Blue Sky-Commerce, MI) seeing double features (\$1.00 per car) with pony rides & cartoons before the 1st feature. In college I went to the Fine Arts with Richie Pelletier for the skin flicks (Lash LaRue - Hard on the Trail) and when I went into business (East Coast, Midwest, Thailand & West Coast) to matinees for a \$1.00 or half price (now \$6) (once inside I would see another feature on the same ticket just timing it perfectly so I would not miss any of the 2nd feature). I again have seen over 15,000 films from 1957 (TV Movies) to 2011 (Theater & DVDs) & these are the Top Films that I have seen. I am a real critic of films studying them from quality of the film making, subject matter, actors, screen play & film story on a scale from 10 to 1. I refuse to sit through a film that is below an 8 rating based on Internet & TV reviews which happens 90 out of 100 films. I prefer dramas for their emotional connection since I have no deep emotional contract since my mother died & I am no longer in any female relationships (I cry in the good ones) & bios because I enjoy learning about people's lives & their trials, tribulations & accomplishments. I never see any horror or sensational firms because they are unrealistic, stupid, idiotic, & tasteless (complete waste of your time) & so are the people who see them, which I did not associate with either.)

TV Comedy/Variety Series (39):

(I have seen over 30,000 hours of TV programming from 1957 (1st TV Zenith Black & White Set) to 1994 after I left for Thailand & I am a real critic of TV shows studying them from quality of the entertainment, subject matter, actors, script & presentation on a scale from 10 to 1. I have only watched sports (4hrs/day) since I came back in 2004 with a few comedy shows as an exception but no series programs, which is now 30 minutes per half an hour of commercials. I refuse to sit through a show that stinks which is about 99% of the time now on cable (DirecTV). Cable is 50% advertising (infomercials) & 45% reruns leaving only 5% new or live programming which is sports & a few new shows. These classic shows I have seen about 10 times each because of the reruns for the last 50 years but this had a great influence on my life.)
